

Testimonial

We at Parris Cabinetmakers & Joiners Ltd cannot overstate the value of having the expertise of Richard Mobbs of the Yes Disability Resource Centre in Albany.

Richards professionalism , design expertise and understanding of the needs of both disabled and impaired clients, is reflected in his designs which are specific for each individual client. Richard includes all of the families needs in his designs as well.

We get very detailed production drawings along with the elevations and colour designs which makes for an easier and quicker production process .

Richard always comes in for a pre production meeting with us, so we can go over the job and refine anything at this point.

We would recommend Richard for any job, he is very easy to get along with and nothing is a problem.
